The Australian Society for Parasitology, founded in 1964, is a flourishing scientific society that makes a significant contribution to the intellectual and educational life of Australia.

Among the many awards that it offers, the Society presents prizes for students studying parasitology in universities. Its newsletter is eagerly anticipated for the latest gossip and events and an extensive range of travel awards and bursaries are given to students and overseas visiting lecturers.

Join now to become part of

this vibrant organisation. The fantastic membership benefits* include:
